<about me>

Creative and detail-oriented Frontend Web Developer with over 8 years of experience delivering responsive, user-friendly websites and digital interfaces. Strong expertise in HTML5, modern CSS3, and WordPress development, with a keen eye for design backed by 10+ years in graphic design. Proven success in freelancing environments — building custom WordPress themes, optimizing UX, and collaborating with global clients across industries. Currently seeking a frontend web development role where I can contribute clean, accessible, and performant frontend solutions.

<work experience>

FRONTEND WEB DEVELOPER @MOR Digital

2021 - 2025

- Transformed design mockups into pixel-perfect, accessible frontends using HTML5 & CSS3.
- Customized MODx, Shopify and WordPress sites, integrating plugins, themes, and optimizing for speed and mobile responsiveness.
- Performed website audits to improve SEO, accessibility (WCAG 2.2), and loading performance.
- Collaborated with designers, project managers, and backend developers to deliver seamless end-to-end solutions.

WEB DEVELOPER, GRAPHIC DESIGNER @Freelance

2015 - 2020

- Created UI/UX designs tailored to unique client goals, ensuring intuitive and user-friendly layouts.
- Delivered WordPress websites, theme customizations, and e-commerce setups with WooCommerce and Shopify.
- Produced logos, marketing materials, and branding assets to support client identity.
- Consulted with clients to align design objectives with business needs.

UI/UX DESIGNER, WEB DEVELOPER @Alpha Wellness Sensations

2014 - 2015

- Designed and developed functional, responsive web applications.
- Built wireframes and interactive prototypes, transforming ideas into production-ready designs.
- Managed branding, typography, and visual consistency across multiple projects.
